The Battle of The Ballots

While the European countries are fighting the battle of blood, while they are making happy homes places of misery and woe leaving women with aching heart for the loss of loved ones, and little children helpless and alone are holding up their little trembling hands, and asking for the crumbs that fall from the rich mens table who have caused their fathers to lay their lives upon the altar of their country.

We are having war here in this country, it is mild however, as "we are too proud to fight" although, we have had a greater loss of life in the troubles with Mexico, than was lost in the battle of Manilla Bay, when Admiral Dewey sent the whole Spanish fleet to the bottom of the Bay. And although, the cost of living continues to soar up and up, and although, we have an army of peace, which is costing us millions of dollars a year.

The war that we have that is attracting the attention of the whole country is the battle now being fought, it is one without bloodshed, it is the battle of ballots, one that the weak and the one that the poorest man in the country stands as high as the man with his millions.

We are not a prophet, nor the son of a prophet, but we are going to make a prediction, and ask those who read and keep up with the times to remember this and lets see who it is that can best obtained. judge the situation. Mr. Hughes States will win the race for President, by a good safe majority. The Republicans are at work as they have never worked before, and they have never had an organization like the one they have this year, they are all wide awake and if we do our duty we will carry Kentucky by a good safe

The Democratic party is losing and losing fast, they are making a death struggle and realize that they will lose the State this year they have never, in the history of the party in Kentucky, had so many of the prominent Democratic orators, they would have had Woodrow come to Kentucky but he is content to stay at Shadow Lawn, so that after the election he can say that if he had campaigned as did the Republicans, he would have won.

The only thing for the Republicans to do is to continue the fight as they are now and the victory ours.

FOR A MUDDY COMPLEXION.

is the twentieth century means of settling disputes.

In time, Arbitration should supplant war in deciding differences between great nations. Acceptance of the principle of Arbitration will render great industrial strikes impossible - and even minor differences will come to be settled by this means. Impartial judges can be counted upon to render fair decisions.

To impartial judges of roofing, we will always be willing to leave decision as to the comparative merits of roofings, confident that intelligent investigation will result in a decision for

Certain-teed Roofing

An investigation into methods of manufacturing would show that only the best quality of roofing felts is used in CERTAIN-TEED roofing. This is thoroughly saturated with a blend of soft asphaltsthe formula of the General's Board of Expert Chemists. It is then coated with a blend of harder asphalts, which forms an impervious coating and prevents the inner saturation from drying out.

This explains why CERTAIN-TEED outlives ordinary roofing, and why it is possible to guarantee it for 5, 10 or 15 years, according to ply (1, 2 or 3). The responsibility of the world's largest manufacturer of roofings and building papers is behind this guarantee; which is conservative, as experience proves that CERTAIN-TEED outlives the period of guarantee.

The General makes one third of America's supply of asphalt roll roofing. His facilities are unequaled, and he is able to produce the highest quality roofing at the lowest manufacturing cost.

CERTAIN-TEED is made in rolls; also in a slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest

CERTAIN-TEED is sold by responsible dealers all over the world at reasonable prices. Investigate it before you decide on any type of

Straw Votes Indicate Hughes' Election.

The Cincinnati Enquirer, a Democratic paper, is publishing every Sunday a Straw Vote taken in various States. The total number of votes for each candidate does not indicate anything in a straw vote. The number for each depends upon the locality in strong alike has the same power, which taken. But the relative gains and losses when compared with 1912 give a basis for making estimates which indicate how States will probably vote if conditions continue as they were when the straw vote was taken, and if the location in which they were taken are representative of other sections of the respective States. However, the total straw vote reported gives Judge Hughes a substantial plurality.

Basing the calculations on the relative gains and losses as shown by the Straw Vote of the Enquirer, the following result is

held Aug. 4th, 1917.

In over a million homes they know

At some time every woman has had her coffee problem - "bad, coffee, medium coffee, coffee that was never twice the same."

A million women have solved the problem by serving Arbuckles'. Get a package of Arbuckles' Coffee today and see why.

Everyone likes it. Morning after morning a million men praise it for its fine, full flavor. Women depend on it. In all these homes, it helps make breakfast a complete success.

Read what a few of these women say:

"I recommend Arbuckles' Coffee to my friends. I buy it all the time because it is better coffee."—Miss B., Mercer, Ky.

"I use Arbuckles' because it is stronger than 35c coffee, and Arbuckles' packages are full 16 oz."—Mrs. V., Coldwater, Kans.

"I have been using Arbuckles' Coffee for years. I think it is the only coffee fit to drink."—Mrs. A. C. W., Lay, Colo.

"We have used Arbuckles' Coffee for ten years, and have not yet found its superior or equal." - Miss H., Bessemer, Ala.

"The finest cup of coffee I ever tasted!" Like these million other women you can have your husband say this. Isn't that satisfaction worth a little time and effort - wouldn't it be worth while even to make a special trip to the grocery store for a package of that fresh, full flavored coffee a million other men are enjoying?

Have it tomorrow. He will praise it morning after morning. When you serve Arbuckles' you will know why it has solved the coffee problemain over a million homes.

There are hundreds of varieties of coffee grown. To get the result you want, the coffee itself must be right. Arbuckles' Coffee is. It is put up by Arbuckle Bros., the greatest coffee merchants in the world. They can give you greater value in coffee than anyone else. No wonder Arbuckles' is the most popular coffee in America today!

EUROPE'S WAR PROVES PROTECTION IS RIGHT

Elihu Root Shows That the Republican Party's Cardinal Principle Has Won the Only Decisive Battle of the Contest.

WE PROSPER BECAUSE THE HOME MARKET IS OUR OWN

When Peace Comes and Foreign Commercial Confederations Look Hungrily Toward America, We Shall Deserve What Happens to Us If Provision Is Not Made Against Disaster by a Tariff Quite Different From the Underwood Folly.

There is one particular subject with which the United States must deal in order to meet the revulsion in production and trade which will accompany the close of the great war. That is the Tariff. I think there is very general agreement upon that. When the demand for supplies to the armies in the field has ended great numbers of men will return to productive employment in Europe and great numbers of operatives will be thrown out of employment here and will have to find other work. Europe will have little money and be heavily in debt. She will be under strong compulsion to pay her debts by making and selling goods. She will be on a basis of strict economy and high organization and she can make and sell cheaply. The United States will have an abundance of money and vast purchasing power. Our market has always been attractive to European producers. It will be far more attractive after the war. It is highly probable that even England will resort to a protective tariff, so that our production will meet protective barriers in all foreign markets. What are we going to do then? We must do something. We must protect ourselves or we shall become the dumping ground of the world and our

workmen will beg in the streets. Even the Democrats have seen that something must be done, for they have provided a tariff board to ascertain and report the true facts to which a tariff law is to be applied. In Mr. Taft's Administration the Republicans provided for a tariff board to report to the President and it was appointed and doing excellent work. When the Democratic House elected in 1910 came in they starved it out of existence by refusing appropriations. In the last session of the 61st Congress the Republicans passed through both Houses a new bill for a tariff board to report to Congress. There were some slight differences of detail in the two Houses, which were agreed upon in conference, but the Democrats filibustered against the final conference report and so killed the bill. So the tariff board was dead-slain by the Democratic party. It has now been resurrected by that party because they see that something must be done about the tariff when the war closes. Now, we can all understand that if the country wants a tariff for revenue only they may put the making of it in the hands of the Democratic party. But, can any sane man contemplate that party making a protective tariff? In the first place they can't do it honestly. They don't believe in it. They were born and bred in a different faith. They have been crying so long that protection is an abuse of power and an abomination favor of the principle of protection. that they can't reconcile themselves to | How the party does change its colors.

DOG GONE IT ALL!

-Carteon by Bradley in Chicago Daily News.

protective tariff, and they regard the Underwood tariff as a model. That is vhat we are to have if the Democrats go back-the Underwood tariff still, with perhaps here and there a slight modification regarding dye stuffs and some other articles which can be shown to gentlemen from Missouri and elsewhere. Well, if there ever was a clumsy, ill conceived, misfit law, it is the tariff which bears Mr. Underwood's name. We had already discovered what its effect was when the war in Europe began.

Many mills and factories were closed or running but a part of the time Great numbers of laborers were thrown out of employment, and the market for American products was still further reduced by the destruction of their purchasing power. Enterprise halted, discouraged and apprehensive of the future. New enterprises were no longer attempted. Old plants were no longer enlarged. The Underwood tariff had already failed when the war in Europe began. That war furnished and continues to furnish to American production the most absolute protection because it has to so great a degree stopped production in Europe. Sc long as the war lasts our producers have practically no competition in our home market, for Europe does not make the goods to sell here. At the same time, while the war lasts our producers have an enormous market in Europe for the things that Europe can't produce in sufficient quantities. When the war is over that condition will cease, and we shall deserve what happens to us if we do not provide against that time by a tariff quite different from the Underwood tariff and made by men who do not consider a tadiff for revenue only an article of religious faith.-From the Speech of Elihu Root Delivered at Carnegie Hall New York City, October 5, 1916.

Editorial Comments

Mr. Hughes has made Mr. Wilson's policy of deciding a case and then getting the facts afterward one of the most pitiable exhibitions of weakness that even the present administration can give.

"Peace, preparedness and prosperity" are claimed as the Democratic campaign cries. More appropriate ones would be "Ple, pork and piffle."

And now nobody seems to know exactly what the new wage law means or to whom it applies. Another illustration of Democratic inefficiency.

The Democratic congress has voted a tariff on dyes, thereby declaring in

Public Sale

OF A FINE BLUE GRASS FARM is over, or the property will be ties. Located about 2 1-2 miles

If not sold privately before October 25, 1919, I will, on that date, begining at 10:00 o'clock A. M., sell to the highest bidder, my farm, stock and crops.

Discription: - 175 acres; 60 acres in cultivation, balance in timothy, meadow and blue grass.

Location: Six miles from Lebanon and Springfield, near Simms, Ky., on a good road, near church, store and school; on Rural Rout and has telephone.

Improvements: Two story, 7 room brick dwelling with two porches and cistern at door; tenant orchard and other good improvehouse and all necessary outbuildings, one 7 acre tobacco barn and one stock barn. All buildings in good state of repair. Good orchard, one cultivated Pecan tracts if desired. Call or write, and three Chestnut trees, two never failing syrings, two never failing wells and two ponds. About six acres in Locast groves with lots of posts. Thirty acres of Fox wheat. A few years ago, while drilling for water, a strong flow of gass was struck in the yard.

This farm will be sold in two tracts and then as a whole.

For particulars apply to .

HALE'S CREEK SCHOOL HOUSE, SATURDAY, OCTOBER 28, 7 P. M.	

Let everyone get to work and do his duty and we will elect a Republican President this year and carry Kentucky. We elected one State official last year, but lost the Governor by only 471 votes in the entire State. The 11th Congressional district lacked 18660 voting out and Knox County lacked er 1600, your precinct did not much more than half vote out. Our county is losing its prestage and the new test well, which ought | School had peen dismissed influence to which it is entitled in politics and in the affairs of our State because many of us fail to perform our duties of citizenship in the exercise of our sufferage.

Let us do our duty this time. Everything is looking good. The recent registration in Louisville gave a Republican gain over last year of 4332.

According to law, (Sec. 1550, Sub Sec. 18), the number of ballots to which each precinct is entitled, not only in the next August Primary when we elect our county officials, but also for the ensuing four years, is based on the number of votes cast in this Presidential election.

EVERYBODY INVITED---LADIES ESPECIALLY

B. C. LEWIS, Chairman

E. H. CANNON, Secretary.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emul-ion is exactly what you should take; its ich nutriment gets into the blood and

Things That Help Make a Good Community

We hear much talk nowadays about community life and various suggestions as to how it should be improved, but I wonder how many of us have ever stopped to think for a moment. just who is responsible for these improvements.

Every one should be greatly interested in the welfare of his community and feel that he is a part of it, and furthermore that that the success of any improvement or strides of progress will be due to his and others efforts. Also he should realize that the succes or failure of those movements will depend largely upon the support given it by the people within the given community.

Is it not true that our attitude toward the uplift of humanity will determine the mark of prosperity to which the community will attain? When one enters a strange community and stays for any length of time he will readily detect the conditions there. In one place he will find people working in perfect harmony, cooperating, and pulling together for the common good of all. And in this locality he is apt to find its people prosperous, with good roads, good schools and good churches with organizations for both young and old which are absolutely necessary for the upbuilding of any community.

In the other one you know what you will find; people content to go on in the same old way our forefathers have trod, as though it would be irrespectable of them for us to use our twentieth century enlightenment to improve upon their work. In other words. just waiting for the Lord to call them home, you see nothing to enjoy nor admire. Neither did the young men of that community, for they have left and gone to town or elsewhere.

No community can be prosperous without good roads, and it goes without saying: in order for any community to advance and keep pace of the time it must have a good school; for the school is or at least should be the enlightening center of the whole people within. The school to do its greatest service and fulfill its Mrs. Lake Crofford and little mission should touch and so enthem to live that they will be Mr. and Mrs. Oscar Deaton continually improving their lands bettering their ways of living in every respect.

Last, I will mention, which is perhaps the greatest and most assuredly the greatest where Aunt Marriah Howard was the properly conducted, is the church, and its forces for good. This is one of the institutions that at the Mr. and Mrs. Ed. Dozier were present time demands a share of visiting Mrs. Dozier's parents, our attention and support, above The appaling death-rate from Mr. and Mrs. Sam Fisher Satur- all others. There is nothing that can take the place of the church. It has a mission that none other can fulfill, that of furnishing the the time. community spiritual food. Also I am of the opinion that the Mat Sparks will leave Sunday church of today could have a be on the stump or up one. much greater influence if it would The people who travel the Dixie only turn its attention to the ally a social being and will in some way satisfy his social instinct, and as conditions are in many places he must seek some place other than that controlled R. B. Moss wasin Corbin Wed- by the church, or its influence.

Then to sum up a few of the many helps for a community we have co-operation of all the people in the community, good roads for all to use and enjoy, schools that furnish 'more abundant cans. life" and knowledge of the things of most concern to the people, and a church that actually meets the needs of its people. With these and the kind assistance of Providence any commuity should be a prosperous one.
